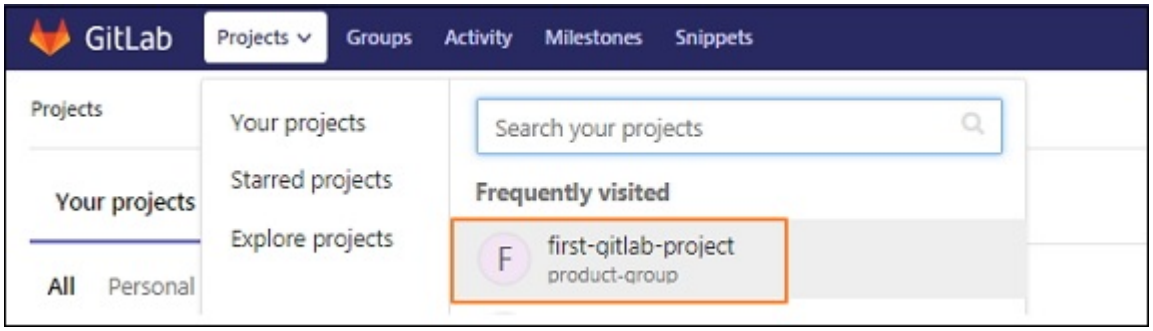
GitLab - Create a Branch

Description

Branch is independent line and part of the development process. The creation of branch involves following steps.

Creating a Branch

Step 1 − Login to your GitLab account and go to your project under *Projects* section.



Step 2 − To create a branch, click on the *Branches* option under the *Repository* section and click on the *New branch* button.

Step 3 − In the *New branch* screen, enter the name for branch and click on the *Create branch* button.

Step 4 − After creating branch, you will get a below screen along with the created branch.
